

STEELSPAN FLOOR SYSTEMS

FOR RESIDENTIAL APPLICATIONS **AN ALTERNATIVE TO CONVENTIONAL WOOD JOISTS**

Uniquely designed steel floor joists. All components are roll formed out of high tensile galvanized steel. The components are assembled using TOX[®] technology.

Steel Floor Joists Features

- Light weight and sturdy**
- High tensile steel for strength**
- Longer spans with smaller heights**
- Eliminate beams and teleposts**
- Won't rot , split, warp or crack**
- Galvanized steel won't rust**
- TOX connections don't weaken steel like welding and screw holes**
- Mold, fungi resistant**
